

The Ricoh FL-BC7528-9M is a **75mm lens** FA lens compatible with 1" to 1/3" camera sensors with a resolution up to 9MP. It exhibits excellent performance in capturing high definition images right from the center to the periphery of the image. The FL-BC7528-9M is compact lens (42 x 81mm) and weighs just 189 grammes.

A floating mechanism allows the capture of high-resolution, low-distortion images at all ranges. The lens demonstrates maximum performance at any magnification or working distance from infinity right down to 250mm and is ideal for a wide range of applications:

- Industrial Imaging & factory automation
- Measurement and inspection applications
- Line-scan cameras and sensors up to 16mm long
- Broadcast and film
- and many other applications.
